

Assignment -4

Docker and Kubernetes

Assignment Date	25 October 2022
Student Name	Nishanthi.G
Team id	PNT2022TMID46448
Maximum Marks	2 Marks

1. Pull an image from docker hub and run it in docker Playground

The screenshot shows a two-part process. The top part is a browser window displaying the Docker Hub page for the repository `uifd/ui-for-docker`. The page indicates that the repository is deprecated and suggests using Portainer instead. It shows the Docker Pull Command as `docker pull uifd/ui-for-docker`.

The bottom part is a screenshot of the Docker Playground interface. It shows a session with the IP `192.168.0.13`. The terminal output shows the following commands and results:

```
# This is a sandbox environment. Using personal credentials
# is HIGHLY discouraged. Any consequences of doing so are
# completely the user's responsibilities.
#
# The FWD team.
#####
[model] (local) root@192.168.0.13 ~
$ docker pull uifd/ui-for-docker
Using default tag: latest
latest: Pulling from uifd/ui-for-docker
